ABOUT THE GAME

Referee full 11v11 matches, then step into every other role on the pitch, the bench, the stands and the press box.

Motion Soccer PRO is a football referee simulator built for VR and fully playable on a monitor with mouse and keyboard or a controller, and on mobile with touch controls.

Call fouls, play advantage, show cards, award penalties and judge offsides from inside the pitch. In VR you show the card with your own hand. Review the big calls in the VAR room, flag offsides on the line or manage substitutions and added time as the fourth official.

Referee by the book or tilt the match on purpose, and deal with the protests, the coaches and the crowd. Every decision changes how players, coaches and fans react to you.

When the final whistle goes, step back into the same match as a player in first person, a goalkeeper, a coach, a match physio, a sports photographer, a commentator in the booth, a TV director or a fan in the stands.

Earn your referee licences and take charge of tournaments and full league and cup seasons with clubs and national teams inspired by real football, day and night, in rain and snow.

Built together with our Discord community, with new updates every few days.

One match. Twelve ways to live it.

01 Referee

Call fouls, play advantage, show yellow and red cards, award penalties and judge offsides. Players protest, coaches complain and the crowd boos every mistake.

02 Fair or corrupt

Referee by the book and earn respect, or tilt the match on purpose and try not to get caught.

03 VAR

Rewind the incident in the VAR room, study it from several cameras, draw the offside line and recommend a review.

04 Assistant referee

Follow the last defender along the touchline and raise the flag for offsides, throw-ins and fouls the referee can't see.

05 Fourth official

Hold up the substitution board, show the added time and keep both benches in check.

06 Player

Play in first person with Standard Control or Expert Control, moving your hands like your feet to strike the ball.

07 Goalkeeper

Set the wall, read the free kick, catch crosses and punch the ball clear at corners.

08 Coach

Lead your team from the bench or the tactical view, change tactics, make substitutions and face the press after the match.

09 Sports photographer

Shoot from the touchline with lenses up to 600 mm: zoom, focus and fire bursts, complete assignments and land the front page.

10 Match physio

Spot injuries, catch fake ones, treat players with medical mini-games and drive the stretcher cart onto the pitch.

11 Commentator & TV director

Call the match live from the booth with ON AIR microphones and a prompter, or direct the broadcast across 8 cameras.

12 Fan

Beat the drum, wave your flag, throw paper planes, light flares or try a pitch invasion and grab a selfie with the referee.
